Monthly Well Maintenance Report

HILLCREST MANOR

DECEMBER 2023

December 6, 2023

Technician onsite visually inspect the water system and ensure proper functionality of all equipment and components, including both wells and pumps. He checked and cleaned the chlorine container on both wells 01 and 02. He read and recorded the meters at well 01 (371,821,000) and well 02 (146,298,000). He double checked the system for leaks, and everything was in proper working order before his departure.
